

Quality, Environment, Health & Safety Policy

ORAC® is an European manufacturer of high quality plastic products. We use innovative synthetic polymers to manufacture decorate mouldings. We use the **qualitative, aesthetic and environmental advantages** of Purotouch®, Duropolymer® and Durofoam® to bring world class standards. Using our production techniques we offer competitive products to both professional and DIY clients.

ORAC® is committed to **minimize the impact** of all our operations on the **environment** throughout the complete supply chain. Whilst creating a **working climate** where quality, health and safety is of paramount importance.

- The quality of services and the products together with a close relationship with all our **customers** is our main priority.
- By improving the process and the product design we are continuous improving our **qualitative requirements**.

All our processes are supported by our internal **AIA strategy** through checks and audits :

- Working at the **Awareness** and the Attitude of all our people
- Aiming for continuous **Improvement**
- **Assure** what we have improved.

QUALITY

ORAC® insists on the **highest quality standards**. The management and staff focus on customer satisfaction and providing the best **quality products and services**. Therefore, we are committed to:

- **Improving** our product quality and processes **continuously**. This systematic approach will lead to a better overall service and a higher customer satisfaction.
- **Implementing** this policy at **all levels** of the organization and in every (sub-) process carried out.

HEALTH, SAFETY & ENVIRONMENT

ORAC® operates in an **environmentally responsible way** and in **compliance** with all relevant environmental legislation. This reflects in all aspects of our **materials and energy** management.

- We measure and aim to improve our **Carbon foot print – TARGETTING : Carbon Neutral by 2023**
- **We are reducing** all kinds of **waste** and maximize re-use of internal waste.
- We strive to maximize the use of **eco-friendly** products and materials.
- Reduction of **energy** consumption by internal work procedures and smart capital expenditure.
- We screen and evaluate all **environmental risks** and aim to reduce their impact.

Accident prevention is a top priority. The company target is to have **zero accidents**.

ORAC® manages their safety responsibilities by:

- **Reducing the risks** continuously in all processes and in every operation.
- Providing regular information about the **safety figures**.
- Creating **communication platforms** in encourage all staff to engage with HSE goals.
- **Implementing** this policy throughout the complete organization
